International Training Programme

Quality management and marketing for organic agricultural commodities

Certificate

Mr. Pooyan Shakouri Elizei

11.09.1981, Iran

**has participated in the international training programme
"Quality management and marketing for organic agricultural commodities"
February 13th to March 10th, 2017 in Witzenhausen, Germany.**

The programme was jointly conducted by DITSL Witzenhausen and the Department of Organic Food Quality and Food Culture of the Faculty of Organic Agricultural Sciences, University of Kassel.

The training programme imparts knowledge in the fields of:

- European and international legislation for organically produced agricultural commodities
- Overview on food standards
- Quality infrastructure and consumer protection, role of ISO 17065 for certification bodies
- Introduction to ISO 19011, communication and question techniques for auditors
- Food safety management I: Basic requirements, labelling and declaration, Good Manufacturing Practice (GMP), Hazard Analysis and Critical Control Points (HACCP) System, Food Safety Standard (IFS)
- Food safety management II: HACCP- reasons for implementation, risk analysis, control, practical routine
- Marketing strategies I: Business ideas, visions, marketing and networking, strategic objectives and generating of business information, business plan and financial management
- Marketing strategies II and III: Importance and development of brands, marketing objectives, strategies, instruments and turning points
- Markets and marketing for organic products in Europe, sourcing of organic products

The different topics were communicated by professionals and academics in form of lectures, workshops and case studies. An excursion to a milk processing unit completed the theoretical programme. The programme aimed at enabling the participants to transfer the knowledge gained to the economic and political framework conditions in their home countries and to develop local strategies for organic agriculture, quality control, food processing and marketing for organically produced agricultural commodities. Based on the experiences made during the trip to the Biofach 2017, and on the knowledge transferred during the course, the participants acquired competences on brand development and business plan set-up.
